Newborn Release

Cornerstone Pediatrics cannot verify eligibility on your newborn as your insurance typically does not have your child entered in their system immediately after birth. We will see your newborn today and ask that you call your insurance company to add your baby to your policy before the child's two week visit.

I have been advised to contact my insurance company to add my child to the policy. I understand that Cornerstone Pediatrics will submit a claim for today's visit and if denied by the insurance company, I will be responsible for full payment of this visit.
